Uber has been important in getting me and my friends home after a night out in Greenville SC. There is no reliable taxi service here. Bring back Uber!

Ridiculous. Does SC not support free commerce? Obviously there is something not quite right going on here.

PSC,

According to Darwin's "Origin of Species" as a certain organism becomes less adapted than another it dies out in a constantly advancing environment. Uber is simply superior to taxi services. The drivers are rated, the fares are cheaper, and the common man finally has a way to make a few extra bucks on the side. Large corporate taxi services make false accusations about "safety" and "quality" in an attempt to maintain dominance without lowering prices or adapting to this new competition. For example, What will we do when gasoline is replaced with a new fuel that is cheaper and more Eco friendly? Will we switch to _____ stations and benefit everybody or will we stick to gasoline in an attempt maintain socioeconomic status? I fear for where this country is headed.

Sincerely,

Bring back Uber

Elizabeth Kirshy
